Online Examination System

Introduction

This proposal is just a “proposal.” Nothing is final or binding until it is signed. Everything contained herein is open to

negotiation. Pricing matters shall be discussed once the required funtions are finalized

We encourage the discussions on this proposal. We will be more than happy to address to your questions, comments or concerns over the proposal.

Thank you in advance for taking the time to review our proposal. We truly appreciate the opportunity to earn your business and are prepared to do whatever it takes to do so!

Overview

The primary objective is to develop and build a Online Examination Website System for advocates and law companies.This is not 100% customized solution rather its a Turnkey solution with predefined standard functions.

What is Included ("Scope of work")

A complete, fully tested, optimized and web based Multi User Online Examination Website System.

Said Proposal is for Online Examination Website System which basic purpose is to keep it best possible level simplified so that at user level no specific IT expertise needed to operate it making it easy to operate and cost effective being in operation.

Features

Online examination system developed in PHP and MySQL, is a responsive, easy to use, full-featured and flexible web based application to conduct examination online. This application has been developed keeping in mind, an institute which has various branches/franchisee and students in each of them. We have come up with a new version after considering various suggestions or feedback received. A Major difference in this version is in the way we create exams. A Few additional new features are listed below:

New Features:

1.Question Bank

2.Exams based on multiple subjects

3.Introduced Batch time for students

4.Configurable option for time availabilty to late student logins

5.Configurable Time Zone

6.Support for questions with equations

7.Support using MathJax and Latex

8.Export Question Database with Excel

9.Import Questions to a subject through Excel

Methodology

Throughout Design, Develop and Implementation Process core Conceptual concept will remain in mind to keep operational system simplified upto maximum possible level so that operating said does not require any technical knowledge.

All Complexities of operational and conceptual procedures will be delt by the software internal algorithim. Keeping it simple for operator. For its operation any body who can play with computer can operate the Software.

Technology and Compatibility

Note: if all the jargon below is Greek to you, just know that it basically means that we will develop the Software to conform with all of today's technology standards.

Development Media	:	PHP,XML,
Database	:	mySQL

Timelines and Milestones

Our *tentative* production schedule proposed is as follows. However, please realize that these are NOT deadlines. If you require a specific launch date or other sorts of deadlines, we are happy to oblige given enough advance notice. Otherwise, we

prefer to estimate the timeframes but ultimately take the amount of time that is needed for the best results. While we don't bill you by the hour, our costs are based on the amount of time we invest into each project. So rest assured that we have a very vested interest in moving quickly.

(Note that the days are measured in business days, starting from the day the project begin by receiving down payment and initial data required to take start.)

Basic Core development	2 Weeks
First Implantation and Testing at Client Site	1 Weeks
Fine tuned Final Version Handover	1 Weeks

Fees & Payment

Please go through details covered in this proposal. It would be easy for us to settle down the cost of the project when requirements are completley discussed by both parties.

Important Notes/Points:

- Simply providing of Binaries. Source code will remain the property of the Intelligent Business Solution and will never be handed over what so ever the case may be.
- This proposal is designed keeping in mind that this site would be support site not the school main site. If you want to have it school Company main site we can send u revised reworked proposed model.
- As we can not share source code so hosting will be remain under our charge and we shall provide. What sort of hosting account needed depend upon

1 Number of total Usere
2 Number of user using site at same time
3 nature and volume of data
4 Backend webapplication required initial dedicated RAM

- Cost Structure
  In order to give you idea of web application cost structure it would have following components
  - intial Setup Fee
  - Monthly charges
  - Trainning Charges
  -

We really appreciate for your time and energies you have spend for going through this comprehensive proposal. If you need any further information, details it would be our p[leasure to provide you the same.

Hoping to hear from you soon and a proper detailed meeting time so that we can discuss your needs and can show how this application can full fill your needs.

Assuring you best of our services and looking forward to have good future business relationships.

Regards.
